

The City of Temple Public Works Solid Waste Division will be hosting a class on:

ILLEGAL DUMPING ENFORCEMENT

December 3, 2014 ~ 9am to 4pm
Training Room at Public Works Administration
3210 E. Avenue H, Bldg. A

You can register for this class online at
www.tidrc.com/classes.html

The cost for the class is \$75 with 6 DSHS CEUs awarded.

The class will focus on the following ways to control illegal dumping: (1) using municipal ordinances; (2) using public health nuisance and/or public nuisance laws, especially THSC Sec. 341.013 (c); (3) using the Texas Litter Abatement Act THSC Chapter 365; (4) controlling dumping into and adjacent to water through using TWC Sec. 7.145 and 7.147; (5) using other sections of TWC Chapter 7 [Subchapter E] to control dumping and mishandling of hazardous waste, medical waste, used motor pool, and lead-acid batteries; (6) local governments using civil suit powers provided in TWC Sec. 7.351. Various policy and officer safety issues involved in enforcing illegal dumping will also be addressed.

Who Should Attend

Local code enforcement officers & registered sanitarians; local peace officers; local health dept. officers; specialized environmental enforcement officers; fire marshals & firefighters; prosecutors; city & county staff & elected officials needing a good understanding of the approaches available to control illegal dumping; state agency officers needing a good understanding of the enforcement powers available to local governments.
