The Criminal Justice Advisory Committee (CJAC) announces that there will be a workshop, wherein discussions will be held on issues that have particular and wide spread interest to the region. Historically, the Central Texas Council of Governments (CTCOG) region receives grant funding from the Criminal Justice Division (CJD) of the Office of the Governor (OOG). Allocation of these funding opportunities is based on preset priorities found within our Criminal Justice Strategic Plan. Please plan to join us in assessing our current plan and identifying existing gaps in our system for future development.
