FUNDING OPPORTUNITIES AND RESOURCES

MARCH 27, 2023

FHWA Charging and Fueling Infrastructure Grant Program

The FHWA Charging and Fueling Infrastructure Grant Program is now open for applications! This program provides funding for political subdivisions, MPOs, local governments, and special purpose districts for deploying publicly accessible electric vehicle charging and alternative fueling infrastructure in urban and rural areas as well as along designated Alternative Fuel Corridors. The IJA provides \$2.5 billion over five years for this program with \$700 million for FY 2022 and 2023. There will be two grant categories: The Community Program will provide \$1.25 billion to strategically deploy publicly accessible EV charging infrastructure, and hydrogen, propane, or natural gas fueling infrastructure in communities. Infrastructure may be located on any public road or in other publicly accessible locations such as parking facilities at public buildings, public schools, and public parks, or in publicly accessible parking facilities owned or managed by a private entity. Awards are \$500,000-\$15 million.

The Corridor Program will provide \$1.25 billion to strategically deploy publicly accessible EV charging infrastructure and hydrogen, propane, and natural gas fueling infrastructure along designated alternative fuel corridors (AFCs). Minimum award is \$1 million. Applications are due by **May.31, 2023**. For More Information and to apply, Click [Here!](#)
