

SOLID WASTE ADVISORY COMMITTEE BYLAWS

Principles and Policies

1. The Representatives of local governments (or stakeholder groups) in the Central Texas Area join together in a voluntary organization to be known as the Central Texas Council of Governments (or its Advisory Groups), for the purpose of meeting at regular intervals to discuss problems and needs which require action on an area-wide or regional basis, to develop plans, policies (if authorized), and recommendations for action and implementation by local member governments and other appropriate levels of government within the region.
2. Counties, Cities and School Districts are the principal units of local government in the region. As such, they have the responsibility of planning for and meeting the local governmental needs which future development will produce, including the need for joint and coordinated area-wide service.
3. Sound and workable policies and programs for meeting and solving the area-wide problems of local governments will be most effective and ultimately carried out through regular meetings of the local governmental units (or stakeholder groups) in an area-wide voluntary council dedicated to the solution of these problems.
4. The Council (or its Advisory Groups) is a voluntary organization whereby individual governmental units (or stakeholder groups) can work together in coordination of their efforts in planning and guiding the needs of a progressive society.
